

IDENTITY VERIFICATION · KYC

VantiScan

Know who you are dealing with, before money or goods move.

Send an applicant a one-time link. They open it on their own phone, give consent, complete a live selfie check and photograph their ID. Your staff see the selfie and ID side by side and make the final call.

KEY FEATURES

- **Single-use links that expire,** so a forwarded link gets nobody in.
- **No app to download:** it works in the phone browser your customer already has.
- **Live selfie check with random prompts,** so a printed photo or a picture on a screen won't do.
- **Staff review screen:** selfie and ID side by side; every decision stored with reviewer, time and note.
- **Send by email, WhatsApp or plain link;** SA numbers are formatted for you.
- **POPIA consent recorded** with a timestamp on every check.
- **Dashboard** with search, pending/passed/failed tabs, archive and CSV export.

VantiScan confirms a live person responded to the prompts. Matching the face to the ID is a decision your staff make.

HOW IT WORKS

1. Send a link
By email, WhatsApp or copy-and-paste.

2. Customer verifies
Consent, live selfie and an ID photo, on their own phone.

3. Your staff decide
Review the selfie and ID together and record the result.

See VantiScan on your own files.

Who it's for
Any business that must know who it is dealing with before money, credit or goods move: lenders, furniture shops, car dealerships, landlords and more.

Standalone or together
Use VantiScan on its own or with our other products. Access depends on your subscription.

KEY BENEFITS

Why businesses use VantiScan.

Know who you deal with
Check the person before money, credit or goods move.

Nothing to install
Works in the phone browser your customer already has.

Links can't be reused
Single-use links that expire; a forwarded link is useless.

Your staff decide
Selfie and ID side by side; your team makes the call.

Records you can show
Decision, reviewer, time, note and POPIA consent saved.

Send it your way
By email, WhatsApp or a plain link.

HOW IT WORKS

1 Send a link
Email, WhatsApp or copy the link to your customer.

2 Customer consents
They open it on their phone and give consent.

3 Selfie & ID
Live selfie with random prompts, plus an ID photo.

4 Staff review
Your team compares both and records the result.

WHO IT'S FOR

- Lenders & cash loan businesses
- Furniture stores
- Car dealerships
- Retailers selling on account
- Landlords
- Any business that must verify customers

FAQS

Can I use VantiScan on its own?
Yes. Each VantiPay system works on its own or together with the others. One login across products is coming soon.

How do I get access?
Book a free demo. We give you a written quote and set up your company. Access depends on your subscription.

Do you train my team?
Yes. We train your staff on the system and set up your company, branches and users during onboarding.

Does VantiScan match faces automatically?
No. It confirms a live person responded to the prompts; your staff compare the selfie with the ID and decide.

See it running on your own numbers.
